Phytopathology

An Official Journal of

THE AMERICAN PHYTOPATHOLOGICAL SOCIETY

VOLUME 74

JANUARY-DECEMBER 1984

Editor-in-Chief
K. J. LEONARD

Senior Editors
R. H. LAWSON
R. G. PRATT
G. E. SHANER
R. T. SHERWOOD

Associate Editors

E. BROWN
L. BURPEE
E. L. CIVEROLO
C. CLARK
M. J. DAVIS
J. A. DODDS
R. L. DODMAN
L. D. DUNKLE
L. V. EDGINGTON
R. J. FERRISS
W. C. FULTON

R. J. WILLIAMS
T. D. WYLLIE
E. L. ZEHR

Publisher and Business Manager
R. J. TARLETON

Director of Publications and Communications
S. C. NELSON

Senior Technical Editor
V. BAKER

Technical Editor
R. J. MINTEER

No. 1—January

1-4 **Acknowledgment of Reviewers**

5-7 **Author's Guide for Manuscript Preparation**

8-25 **Seventy-Fifth Annual Report of the American Phytopathological Society**

25-30 **Presidential Address: Excellence in Plant Pathology** ..... R. E. Ford

31-32 **The American Phytopathological Society Elected and Appointed Officers, Representatives, and Committees for 1983-1984**

33-43 **Awards and Honors Program—75th Annual Meeting**

OBITUARY

44 **Walter Hagemeyer Burkholder, 1891-1983** ..... R. L. Millar, W. F. Rochow, and L. J. Tyler

LETTER TO THE EDITOR

45 **An Addition to the Obituary of John Daniel Gilpatrick** ..... M. Weintraub

TECHNIQUES

84-89 **New Media for Rapid Growth of *Spiroplasma citri* and Corn Stunt Spiroplasma** ..... I.-M. Lee and R. E. Davis

104-105 **In Situ Observations of *Phymatotrichum omnivorum* with a Borescope Mini-Rhizotron System** ..... C. M. Rush, D. R. Upchurch, and T. J. Gerik

121-126 **Effects of Microwave Oven Treatment on Microorganisms in Soil** ..... R. S. Ferriss

GENETICS

71-76 **Determination of the Number of Genes for Resistance to Maize Dwarf Mosaic Virus Strain A in Five Corn Inbred Lines** ..... E. Rosenkranz and G. E. Scott

111-113 **Comparative Virulence of Monokaryotic and Dikaryotic Stages of Five Isolates of *Uromyces appendiculatus*** ..... J. A. Kolmer, B. J. Christ, and J. V. Groth

CYTOLOGY AND HISTOLOGY

77-84 **Alterations in Chloroplast Ultrastructure and Chlorophyll Content in Rust-Infected Pinto Beans at Different Stages of Disease Development** ..... I. Sziráki, L. A. Mustárdy, Á. Faludi-Dániel, and Z. Király

DISEASE CONTROL AND PEST MANAGEMENT

55-60 **Biological Control of *Meloidogyne javanica* with *Bacillus penetrans*** ..... G. R. Stirling

106-110 **Evaluation of *Trichoderma koningii* and *T. harzianum* from New York Soils for Biological Control of Seed Rot Caused by *Pythium* spp.** ..... Y. Hadar, G. E. Harman, and A. G. Taylor

VECTOR RELATIONS

46-49 **Irrigated Corn as A Source of Barley Yellow Dwarf Virus and Vector in Eastern Washington** ..... J. K. Brown, S. D. Wyatt, and D. Hazelwood

ECOLOGY AND EPIDEMIOLOGY

65-70 **Botrytis Bunch Rot of Grapes: Influence of Trellis Type and Canopy Microclimate** ..... S. D. Savage and M. A. Sall

90-94 **Suppression of Conidial Germination of *Helminthosporium victoriae* in Soil and in Model Fungistatic Systems** ..... L. Epstein and J. L. Lockwood

100-103 **Isolation and Identification of Races of *Sphaerotheca pannosa* var. *rosae*** ..... C. L. Bender and D. L. Coyier

118-121 **Changes in the Susceptibility of Developing Apple Fruit to *Venturia inaequalis*** ..... W. F. S. Schwabe, A. L. Jones, and J. P. Jonker

ETIOLOGY

50-55 **Identity of *Phytophthora* Isolated from Milkweed Vine** ..... E. Feichtenberger, G. A. Zentmyer, and J. A. Menge

114-118 **A Simplified Procedure for the Purification of Curly Top Virus and the Isolation of Its Monomer and Dimer Particles** ..... R. C. Larsen and J. E. Duffus

PHYSIOLOGY AND BIOCHEMISTRY

61-64 **Relation of Tobacco Hypersensitivity to Pathogenicity of *Erwinia rubrifaciens*** ..... H. R. Azad and C. I. Kado

95-99 **A New Strain of Southern Bean Mosaic Virus Derived at Low Temperatures** ..... M. H. McGovern and C. W. Kuhn

No. 2—February

OBITUARY

127 **Harry William Schroeder, 1916-1983** ..... N. E. Borlaug and M. de los A. Schroeder

ECOLOGY AND EPIDEMIOLOGY

128-132 **Environmental Influences on the Passive Survival of *Pythium ultimum* in Soil** ..... R. Lifshitz and J. G. Hancock

132-135 **Soil Moisture, Root System Density, and Infection of Roots of Pinto Beans by *Fusarium solani* f. sp. *phaseoli* Under Dryland Conditions** ..... P. Dryden and N. K. Van Alfen

195-200 **Survival of *Pseudomonas putida*, a Biological Control Agent, in Soil** ..... M. Dupler and R. Baker

230-235 **Analysis of Disease Progression and the Randomness of Occurrence of Infected Plants During Tobacco Black Shank Epidemics** ..... C. L. Campbell, W. R. Jacobi, N. T. Powell, and C. E. Main

241-248 **Ecotypes and Pathogenicity of Ice-Nucleation-Active *Pseudomonas syringae* Isolated from Deciduous Fruit Tree Orchards** ..... D. C. Gross, Y. S. Cody, E. L. Proebsting, Jr., G. K. Radamaker, and R. A. Spotts

DISEASE CONTROL AND PEST MANAGEMENT

211-213 **Effects of Animal Antiviral Chemicals on Plant Viruses** ..... W. O. Dawson

249-252 **Greenhouse Evaluation of the Curative and Protective Action of Sterol-Inhibiting Fungicides against Apple Scab** ..... W. F. S. Schwabe, A. L. Jones, and J. P. Jonker

CYTOLOGY AND HISTOLOGY

140-149 **Developmental Histopathology of Cankers Incited by Hypovirulent and Virulent Isolates of *Endothia parasitica* on Susceptible and Resistant Chestnut Trees** ..... F. V. Hebard, G. J. Griffin, and J. R. Elkins

153-160 **Selective Delignification of Eastern Hemlock by *Ganoderma tsugae*** ..... R. A. Blanchette

225-229 **Environmental and Host Effects on Colony Development of *Puccinia recondita* f. sp. *tritici*** ..... J. R. Tomerlin, M. G. Eversmeyer, C. L. Kramer, and L. E. Browder

POSTHARVEST PATHOLOGY AND MYCOTOXINS

208-210 **Possible Mechanisms by Which Postharvest Calcium Treatment Reduces Decay in Apples** ..... W. S. Conway and C. E. Sams

RESISTANCE

136-139 **Differential Host × Pathogen Interactions Among Cultivars of Apple and Strains of *Erwinia amylovora*** ..... J. L. Norelli, H. S. Aldwinckle, and S. V. Beer

149-152 **Field Resistance of Crisphead Lettuce to *Bremia lactucae*** ..... J. E. Yuen and J. W. Lorbeer

185-188 **Relationship Between Juvenile-Leaf Resistance to Anthracnose and the Presence of Juglone and Hydrojuglone Glucoside in Black Walnut** ..... S. Cline and D. Neely

217-220 **Population Dynamics of *Erwinia carotovora* pv. *carotovora* in Potato Stems** ..... M. K. Rahimian and J. E. Mitchell

PHYSIOLOGY AND BIOCHEMISTRY

161-165 **Temperature-Reversible Aggregation of Two Strains of Carnation Ringspot Virus** ..... J. H. Tremaine, W. P. Ronald, and E. M. McGauley

179-184 **Root Temperature Effects on the Growth of *Phytophthora cinnamomi* in the Roots of *Eucalyptus marginata* and *E. calophylla*** ..... B. R. Grant and P. N. Byrt

ETIOLOGY

170-175 **Characterization and Pathogenicity of *Rhizoctonia* spp. and Binucleate Rhizoctonia-like Fungi from Turfgrasses in North Carolina** ..... S. B. Martin and L. T. Lucas

189-194 **Infection of Two Endosperm Mutants of Sweet Corn by *Fusarium moniliforme* and its Effect on Seedling Vigor** ..... R. C. Styer and D. J. Cantliffe

201-205 **The Morphology and Disease Cycle of Ergot Caused by *Claviceps fusiformis* in Pearl Millet** ... R. P. Thakur, V. P. Rao, and R. J. Williams

221-225 **Aphid- and Whitefly-Transmitted Cucurbit Viruses in Imperial County, California** ..... J. A. Dodds, J. G. Lee, S. T. Nameth, and F. F. Laemmlen

236-241 **Ultrastructure of *Datura stramonium* Infected with an Euphorbia Virus Suggestive of a Whitefly-Transmitted Geminivirus** ..... K. S. Kim and R. W. Fulton

DISEASE DETECTION AND LOSSES

165-169 **Detection and Concentration of Coconut Cadang-Cadang Viroid in Coconut Leaf Extracts** ..... N. A. Mohamed and J. S. Imperial

GENETICS

175-178 **Influence of Naturally Occurring Marker Genes on the Ability of *Cochliobolus heterostrophus* to Induce Field Epidemics of Southern Corn Leaf Blight** ..... W. E. Fry, O. C. Yoder, and A. E. Apple

205-207 **Inheritance of a Minute Uredinium Infection Type of Bean Rust in Bean Breeding Line 814** ..... J. A. Kolmer and J. V. Groth

214-216 **Heterothallism in *Peronospora effusa*** ..... T. Inaba and T. Morinaka

OBITUARY

253 **Edward Marshall Johnson, 1896-1982** ..... R. A. Chapman

254 **Antonio Ciccarone, 1909-1982** ..... A. Graniti

CYTOLOGY AND HISTOLOGY

277-279 **Electron Microscopic Examination of Tomato Roots Coinfected with *Glomus* sp. and Tobacco Mosaic Virus** ..... S. H. Jabaji-Hare and L. W. Stobbs

280-285 **Infection and Colonization of Tobacco Callus by *Peronospora tabacina*** ..... R. N. Trigiano, C. G. Van Dyke, H. W. Spurr, Jr., and D. J. Gray

299-304 **Cytology and Morphological Development of Basidia, Dikaryons, and Infective Structures of *Urocystis agropyri* from Wheat** ..... B. D. Nelson, Jr. and R. Durán

358-362 **Hyphal Morphology of *Botryosphaeria dothidea* in Vessels of Unstressed and Drought-Stressed Stems of *Betula alba*** ..... J. M. McPartland and D. F. Schoeneweiss

ETIOLOGY

327-332 **Relationship of *Verticillium dahliae* and *Erwinia carotovora* pv. *carotovora* in the Early Dying Disease of Potato** ..... M. K. Rahimian and J. E. Mitchell

DISEASE DETECTION AND LOSSES

296-299 **Natural Infection of Nuts of *Castanea dentata* by *Endothia parasitica*** ..... R. A. Jaynes and N. K. DePalma

363-366 **Relationship Between Seed Infection by Barley Stripe Mosaic Virus and Yield Loss** ..... F. W. Nutter, Jr., V. D. Pederson, and R. G. Timian

RESISTANCE

345-348 **Expression of Genetic Susceptibility, Host Resistance, and Nonhost Resistance in Alfalfa Callus Tissue Inoculated with *Phytophthora megasperma*** ..... S. A. Miller, L. C. Davidse, and D. P. Maxwell

349-351 **Tolerance to Leaf Rust in Susceptible Wheat Cultivars** ..... J. J. Roberts, L. T. Hendricks, and F. L. Patterson

352-353 **Inheritance of Adult Plant Resistance to Crown Rust in an Accession of *Avena sterilis*** ..... D. E. Harder, R. I. H. McKenzie, and J. W. Martens

TECHNIQUES

268-272 **Selective Isolation of *Xanthomonas campestris* pv. *campestris* from Crucifer Seeds** ..... P. S. Randhawa and N. W. Schaad

291-296 **Immunofluorescence Microscopy for the Detection and Identification of Propagules of *Phaeolus schweinitzii* in Infested Soil** ..... F. M. Dewey, D. K. Barrett, I. R. Vose, and C. J. Lamb

319-326 **A Study of Distribution and Sampling of Soybean Plants Naturally Infected with *Pseudomonas syringae* pv. *glycinea*** ..... G. Poushinsky and P. K. Basu

367-372 **Production of Monoclonal Antibodies Against Three Ilarviruses and Alfalfa Mosaic Virus and Their Use in Serotyping** ..... E. L. Halk, H. T. Hsu, J. Aebig, and J. Franke

GENETICS

339-344 **Genetics of Resistance to *Uromyces phaseoli* in a *Phaseolus vulgaris* Line Resistant to Most Races of the Pathogen** ..... J. R. Stavely

354-357 **Selection and Culture of Auxotrophic and Drug-Resistant Mutants of *Tilletia caries*** ..... A. C. L. Churchill and D. Mills

VECTOR RELATIONS

305-308 **Characteristics of and Factors Affecting Helper-Component-Mediated Aphid Transmission of a Potyvirus** ..... B. Raccah and T. P. Pirone

ECOLOGY AND EPIDEMIOLOGY

264-268 **Leaf Sheath Blights of *Sorghum bicolor* Caused by *Sclerotium rolfsii* and *Gloeocercospora sorghi* in South Texas** ..... G. N. Odvody and D. B. Madden

272-276 **Prune Brownline Disease: Susceptibility of Prune Rootstocks and Tomato Ringspot Virus Detection** ..... J. W. Hoy and S. M. Mircetich

286-290 **Host Specialization of Three Morphological Variants of *Verticicladiella wageneri*** ..... T. C. Harrington and F. W. Cobb, Jr.

309-313 **Development and Inoculum Potential of *Peronospora tabacina* in the Fall Season** ..... J. Rotem and D. E. Aylor

332-335 **Differential Transmission of Prunus Tomato Ringspot Virus Strains by *Xiphinema californicum*** ..... J. W. Hoy, S. M. Mircetich, and B. F. Lownsbery

335-338 **Natural Inoculation of Apple Buds by *Botryosphaeria obtusa*** ..... M. Beisel, F. F. Hendrix, Jr., and T. E. Starkey

DISEASE CONTROL AND PEST MANAGEMENT

255-259 **Thermal Components of Soil Solarization as Related to Changes in Soil and Root Microflora and Increased Plant Growth Response** ..... J. J. Stapleton and J. E. DeVay

376-378 **Synergy Between Metalaxyl-Sensitive and Metalaxyl-Resistant Strains of *Pseudoperonospora cubensis*** ..... Y. Samoucha and Y. Cohen

PHYSIOLOGY AND BIOCHEMISTRY

260-263 **Sporulation and Growth of *Curvularia pallescens* as Affected by Media, Temperature, and Nitrogen Sources** ..... D. B. Olufolaji

313-318 **Further Characterization of Panicum Mosaic Virus and Its Associated Satellite Virus** ..... F. G. Buzen, Jr., C. L. Niblett, G. R. Hooper, J. Hubbard, and M. A. Newman

373-375 **Chlorosis and Ethylene Production in Pepper Leaves Infected by *Xanthomonas campestris* pv. *vesicatoria*** ..... R. E. Stall and C. B. Hall

No. 4—April

LETTER TO THE EDITOR

379-380 **The Use of Terms for Responses of Plants to Viruses: A Reply to Recent Proposals** ..... S. M. Tavantzis

381 **A Reply to the Comments of S. M. Tavantzis** ..... A. T. Jones and J. I. Cooper

382-384 **Parasitic Epistasis** ..... G. S. Sidhu

RESISTANCE

438-444 **Variation in Susceptibility to the Pitch Canker Fungus Among Half-Sib and Full-Sib Families of Virginia Pine** ..... J. Barrows-Broaddus and L. D. Dwinell

ECOLOGY AND EPIDEMIOLOGY

401-404 **Effect of Flooding on Development of Phytophthora Root Rot in Fraser Fir Seedlings** ..... C. M. Kenerley, K. Papke, and R. I. Bruck

429-432 **Soil and Seed Tubers as Sources of Inoculum of *Erwinia carotovora* pv. *carotovora* for Stem Soft Rot of Potatoes** ..... M. L. Powelson and J. D. Apple

433-438 **Effects of Cultivar, Soil Temperature, and Population Levels of *Meloidogyne incognita* on Root Necrosis and Fusarium Wilt of Tomatoes** ..... G. S. Abawi and K. R. Barker

448-451 **A Model for Weather-Based Forecasting of Anthracnose on Annual Bluegrass** ..... T. K. Danneberger, J. M. Vargas, Jr., and A. L. Jones

462-467 **Dynamics of Root Growth in Potato Fields Affected by the Early Dying Syndrome** ..... J. B. Kotcon, D. I. Rouse, and J. E. Mitchell

474-478 **Effects of Irrigation on Buckeye Rot of Tomato Fruit Caused by *Phytophthora parasitica*** ..... M. W. Hoy, J. M. Ogawa, and J. M. Duniway

DISEASE CONTROL AND PEST MANAGEMENT

417-422 **Variability in Sensitivity to Metalaxyl of Isolates of *Phytophthora cinnamomi* and *Phytophthora citricola*** ..... M. D. Coffey, L. J. Klure, and L. A. Bower

452-456 **Comparison of the Effects of Sublethal Doses of Triadimefon to Those of Rate-Reducing Resistance to *Erysiphe graminis* in Wheat** ..... R. D. Schein, R. R. Nelson, G. G. Thomas, M. H. Royer, and O. Borges

498-501 **Biological Control Effects of a New Isolate of *Trichoderma harzianum* on *Pythium aphanidermatum*** ..... A. Sivan, Y. Elad, and I. Chet

502-506 **In Vitro Variability Among Isolates of Six *Phytophthora* Species in Response to Metalaxyl** ..... M. D. Coffey and L. A. Bower

SPECIAL TOPICS

445-447 **Sensitivity of *Peronospora hyoscyami* f. sp. *tabacina* to Carbon Dioxide, Compared to that of *Botrytis cinerea* and *Aspergillus niger*** ..... A. M. Svircev, W. E. McKeen, and J. W. Berry

PHYSIOLOGY AND BIOCHEMISTRY

411-416 **The Effect of Limited Proteolysis on the Amino Acid Composition of Five Potyviruses and on the Serological Reaction and Peptide Map of the Tobacco Etch Virus Capsid Protein** ..... E. Hiebert, J. H. Tremaine, and W. P. Ronald

486-490 **Impact of Root Infection by *Phytophthora cinnamomi* on the Water Relations of Two *Eucalyptus* Species that Differ in Susceptibility** ..... P. Dawson and G. Weste

490-493 **Pathogenicity of Strains of *Pseudomonas syringae* pv. *savastanoi* and Their Indoleacetic Acid-Deficient Mutants on Olive and Oleander** ..... G. Surico, L. Comai, and T. Kosuge

GENETICS

467-473 **Genetics of Resistance of Two Dent Corn Inbreds to Maize Dwarf Mosaic Virus and Transfer of Resistance into Sweet Corn** ..... M. A. Mikel, C. J. D'Arcy, A. M. Rhodes, and R. E. Ford

ETIOLOGY

405-410 **Pepper Mild Mottle Virus, a Tobamovirus Infecting Pepper Cultivars in Sicily** ..... C. Wetter, M. Conti, D. Altschuh, R. Tabillion, and M. H. V. van Regenmortel

423-428 **The Relationship of Cherry Leafroll Virus and Blackline Disease of English Walnut Trees** ..... S. M. Mircetich and A. Rowhani

456-461 **Symptomology on Spruce Trees and Spore Characteristics of a Bud Rust Pathogen** ..... J. H. McBeath

479-481 **Etiology of Atypical Symptoms of Charcoal Rot in Sunflower Plants Parasitized by Larvae of *Cylindrocopturus adspersus*** ..... S. M. Yang

482-486 **Characterization of Sweet Clover Necrotic Mosaic Virus** ..... C. Hiruki, D. V. Rao, M. H. Chen, T. Okuno, and G. Figueiredo

CYTOLOGY AND HISTOLOGY

390-397 **Histopathology of Cotton Boll Rot Caused by *Colletotrichum capsici*** ..... R. G. Roberts and J. P. Snow

TECHNIQUES

385-389 **Comparison of Dot Molecular Hybridization and Enzyme-Linked Immunosorbent Assay for Detecting Tobacco Mosaic Virus in Plant Tissues and Protoplasts** ..... I. Sela, M. Reichman, and A. Weissbach

398-401 **Intraspecific Protoplast Fusion Between Auxotrophic Mutants of *Rhizoctonia solani*** ..... T. Hashiba and M. Yamada

494-497 **Improved Methodology for Evaluating Resistance in Sweet Potato to *Streptomyces ipomoea*** ..... J. W. Moyer, C. L. Campbell, E. Echandi, and W. W. Collins

506-508 **A Modified Selective Medium for Detecting *Phytophthora cinnamomi* on Avocado Roots** ..... Z. Solel and Y. Pinkas

508 **Erratum**

No. 5—May

PHYSIOLOGY AND BIOCHEMISTRY

566-569 **Optimal Conditions for In Vitro Growth, Asexual Spore Release, and Germination of *Thyronectria austro-americana*** ..... W. R. Jacobi

572-577 **Peroxidase Enzyme Markers for Ozone Sensitivity in Sweet Corn** ..... E. V. Podleckis, C. R. Curtis, and H. E. Heggestad

RESISTANCE

587-591 **Distribution of *Verticillium* in Stems of Resistant and Susceptible Species of Mint** ..... W. H. Brandt, M. L. Lacy, and C. E. Horner

TECHNIQUES

550-552 **A Device for Uniform Deposition of Liquid-Suspended Urediospores on Seedling and Adult Cereal Plants** ..... M. W. Andres and R. D. Wilcoxson

569-572 **A Wound-Freezing Inoculation Technique for Evaluating Resistance to *Cytospora leucostoma* in Young Peach Trees** ..... R. Scorza and P. L. Pusey

600-605 **Differences Among Monoclonal Antibodies to Barley Yellow Dwarf Viruses** ..... H. T. Hsu, J. Aebig, and W. F. Rochow

GENETICS

561-565 **Nuclear Gene Mutations in *Endothia* (*Cryphonectria*) *parasitica* that Affect Morphology and Virulence** ..... S. L. Anagnostakis

612-615 **Benomyl-Induced Somatic Segregation in Diploid *Armillaria mellea*** ..... J. B. Anderson and R. Yacoob

DISEASE CONTROL AND PEST MANAGEMENT

519-523 **Influence of Selected Protectant Fungicides and Host Resistance on Simple and Complex Potato Late Blight Forecasts** ..... V. J. Spadafora, J. A. Bruhn, and W. E. Fry

606-611 **Studies on the In Vitro and In Vivo Antifungal Activity of Fosetyl-Al and Phosphorous Acid** ..... M. E. Fenn and M. D. Coffey

615-620 **Responses to Metalaxyl of Sensitive and Resistant Isolates of *Phytophthora infestans*** .... M. D. Coffey and L. H. Young

SPECIAL TOPICS

545-549 **Plot Size Effects on Disease Progress and Yield of Wheat Infected by *Mycosphaerella graminicola* and Barley Infected by *Pyrenophora teres*** ..... J. R. Burleigh and M'J. Loubane

ETIOLOGY

524-529 **Biotypes and Phenotypic Groups of Strains of *Agrobacterium* in South Africa** ..... H. J. du Plessis, H. J. J. van Vuuren, and M. J. Hattingh

537-542 **Pathogenicity of *Alternaria alternata* on Potato in Israel** ..... S. Droby, A. Dinoor, D. Prusky, and R. Barkai-Golan

581-585 **Two New Serotypes of Cowpea Severe Mosaic Virus** ..... M. T. Lin, J. H. Hill, E. W. Kitajima, and C. L. Costa

ECOLOGY AND EPIDEMIOLOGY

509-513 **Temperature × Water Potential Interactions on Growth and Sclerotial Germination of *Phymatotrichum omnivorum*** ..... M. F. Stapper, S. D. Lyda, and W. R. Jordan

530-535 **Effects of Crop Management on the Epidemiology of Southern Stem Rot of Peanut** ..... B. B. Shew and M. K. Beute

535-537 **Transmission of *Verticillium dahliae* in Potato Tubers** ..... A. Nachmias and J. Krikun

542-544 **Cold Hardiness and Temperature Responses of Healthy and Mildew-Infected Terminal Buds of Apple During Dormancy** ..... R. A. Spotts and P. M. Chen

553-556 **Characteristics and Distribution of Propagules of *Verticillium dahliae* in Ohio Potato Field Soils and Assessment of Two Assay Methods** ..... V. L. Smith and R. C. Rowe

578-580 **Growth and Lesion Development of *Xanthomonas campestris* pv. *phaseoli* on Leaves of Red Kidney Bean Plants Exposed to Hydrogen Fluoride** ..... J. A. Laurence and K. L. Reynolds

585-587 **Monitoring Wheat Rust Epidemics With the Landsat-2 Satellite** ..... S. Nagarajan, G. Seibold, J. Kranz, E. E. Saari, and L. M. Joshi

592-595 **Factors Affecting Infection of Wheat Seedlings by *Septoria nodorum*** ..... M. Babadoost and T. T. Hebert

595-599 **Increased Virulence of Barley Stripe Mosaic Virus for Wild Oats: Evidence of Strain Selection by Host Passage** ..... A. W. Chiko

621-624 **Salinity Effects on the Susceptibility of Chrysanthemum Roots to *Phytophthora cryptogea*** ..... J. D. MacDonald

CYTOLOGY AND HISTOLOGY

514-518 **Development of Stem Lesions on Slash Pine Seedlings Infected by *Cronartium quercuum* f. sp. *fusiforme*** ..... J. E. Lundquist and T. Miller

557-561 **Scanning EM Studies on the Colonization of Dent Corn by *Aspergillus flavus*** ..... S. F. Marsh and G. A. Payne

ABSTRACTS

625-634 **Abstracts of papers presented at the 1984 meeting of the Southern Division**

No. 6—June

CYTOLOGY AND HISTOLOGY

635-641 **Scanning Electron Microscopy of Virulent and Avirulent Strains of *Xanthomonas campestris* pv. *oryzae* on Rice Leaves** ..... T. W. Mew, I-p. C. Mew, and J. S. Huang

714-721 **Development of the Uredinial Thallus and Sorus in the Orange Coffee Rust Fungus, *Hemileia vastatrix*** ..... J. W. McCain and J. F. Hennen

ECOLOGY AND EPIDEMIOLOGY

646-653 **Effects of Nonpathogenic Strains of *Fusarium oxysporum* on Celery Root Infection by *F. oxysporum* f. sp. *apii* and a Novel Use of the Lineweaver-Burk Double Reciprocal Plot Technique** ..... R. W. Schneider

725-730 **Manganese Accumulation in Wood Decayed by White Rot Fungi** ..... R. A. Blanchette

730-735 **Spatial Pattern of Southern Stem Rot Caused by *Sclerotium rolfsii* in Six North Carolina Peanut Fields** ..... B. B. Shew, M. K. Beute, and C. L. Campbell

742-745 **Biology of *Puccinia chondrillina* in Washington** ..... E. B. Adams and R. F. Line

745-748 **Epidemiology and Host Morphology in the Parasitism of Rush Skeletonweed by *Puccinia chondrillina*** ..... E. B. Adams and R. F. Line

749-754 **Influence of Temperature, Moisture, Modified Gaseous Atmosphere, and Depth in Soil on Eruptive Sclerotial Germination of *Sclerotium rolfsii*** ..... Z. K. Punja and S. F. Jenkins

GENETICS

659-664 **Vegetative Compatibility and Hypovirulence Conversion Among Naturally Occurring Isolates of *Cryphonectria parasitica*** ..... E. G. Kuhlman and H. Bhattacharyya

676-682 **Identifying Hypovirulent Isolates of *Cryphonectria parasitica* with Broad Conversion Capacity** ..... E. G. Kuhlman, H. Bhattacharyya, B. L. Nash, M. L. Double, and W. L. MacDonald

722-724 **Effect of Eliminating dsRNA in Hypovirulent *Endothia parasitica*** ..... D. W. Fulbright

SPECIAL TOPICS

687-691 **Susceptibility of Musk Thistle and Related Composites to *Puccinia carduorum*** ..... D. J. Politis, A. K. Watson, and W. L. Bruckart

PHYSIOLOGY AND BIOCHEMISTRY

654-658 **Isolation of Toxins of *Hypoxylon mammatum* and Demonstration of Some Toxin Effects on Selected Clones of *Populus tremuloides*** ..... B. A. Stermer, R. P. Scheffer, and J. H. Hart

670-676 **Comparison of Two Strains of Kalanchoë Latent Virus, Carlavirus Group** ..... S. S. Hearon

735-737 **Endopolygalacturonase from Valencia Oranges Infected with *Diplodia natalensis*** .... C. R. Barmore, S. E. Snowden, and G. E. Brown

RESISTANCE

683-687 **Canker Elongation, Branch Death, and Callus Formation as Resistance or Susceptibility Responses in *Populus tremuloides* and Virulence or Avirulence Characteristics of *Hypoxylon mammatum*** ..... D. H. Griffin, P. D. Manion, F. A. Valentine, and L. Gustavson

DISEASE CONTROL AND PEST MANAGEMENT

692-694 **Suppression of Brown Patch Disease of Creeping Bentgrass by Isolates of Nonpathogenic *Rhizoctonia* spp.** ..... L. L. Burpee and L. G. Goulty

710-714 **Ripe Rot of Muscadine Grape Caused by *Colletotrichum gloeosporioides* And Its Control** ..... M. E. Daykin and R. D. Milholland

738-742 **In Vitro Variability Among Isolates of Eight *Phytophthora* Species in Response to Phosphorous Acid** ..... M. D. Coffey and L. A. Bower

DISEASE DETECTION AND LOSSES

665-667 **Quantitative Disease Assessment of Wheat Seedling Leaves Inoculated with *Fusarium roseum* 'Culmorum'** ..... J. P. Hill

EPIDEMIOLOGY

701-703 **Leaf Surface Electrostatics: Response of Detached Leaves of Beans and Maize to Humidity and Red-Infrared Radiation Under Controlled Conditions** ..... C. M. Leach

704-709 **Leaf Surface Electrostatics: Behavior of Detached Leaves of Beans, Maize, and Other Plants Under Natural Conditions** ..... C. M. Leach and J. D. Apple

TECHNIQUES

642-646 **Characterization of Araujia Mosaic Virus by In Vitro Translation Analyses** ..... E. Hiebert and R. Charudattan

667-669 **A Sensitive Bioassay for Quantification of Metalaxyl in Soils** ..... A. M. Bailey and M. D. Coffey

695-701 **Leaf Surface Electrostatics: Apparatus and Procedures Used Under Controlled and Natural Conditions** ..... C. M. Leach

755-760 **Abstracts of papers presented at the 1984 meeting of the Potomac Division**

SPECIAL TOPICS

687-691 **Susceptibility of Musk Thistle and Related Composites to *Puccinia carduorum*** ..... D. J. Politis, A. K. Watson, and W. L. Bruckart

No. 7—July

ETIOLOGY

761-767 **Moderate Dosages of Ozone Enhance Infection of Onion Leaves by *Botrytis cinerea* but not by *B. squamosa*** ..... D. L. Rist and J. W. Lorbeer

PHYSIOLOGY AND BIOCHEMISTRY

768-773 **Selective Toxin of *Helminthosporium victoriae*: Thermal Relationships in Effects on Oat Tissues and Protoplasts** ..... S. P. Briggs, R. P. Scheffer, and A. R. Haug

785-788 **Zinniol Production by *Alternaria* Species** ..... P. J. Cotty and I. J. Misaghi

GENETICS

773-777 **Genetics of Bacterial Blight Resistance in a Breeding Line of Rice** ..... A. Yoshimura, T. W. Mew, G. S. Khush, and T. Omura

ECOLOGY AND EPIDEMIOLOGY

778-781 **Comparative Sensitivity of *Rhizoctonia solani* and Rhizoctonia-like Fungi to Selected Fungicides In Vitro** ..... S. B. Martin, L. T. Lucas, and C. L. Campbell

782-785 **Response of Rhizoctonia Blights of Tall Fescue to Selected Fungicides in the Greenhouse** ..... S. B. Martin, C. L. Campbell, and L. T. Lucas

789-886 **Abstracts of presentations at the 1984 Annual Meeting**

No. 8—August

TECHNIQUES

891-894 **The Use of Pathovar-Indicative Bacteriophages for Rapidly Detecting *Pseudomonas syringae* pv. *tomato* in Tomato Leaf and Fruit Lesions** ..... D. A. Cuppels

960-962 **Gel Electrophoresis of Virus-Associated Polypeptides for Detecting Viruses in Bulbous Irises** ..... M. Alper, R. Salomon, and G. Loebenstein

ECOLOGY AND EPIDEMIOLOGY

904-908 **Temporal and Spatial Spread of Citrus Canker Within Groves** ..... E. Danós, R. D. Berger, and R. E. Stall

932-937 **A Fungal Endophyte in Tall Fescue: Incidence and Dissemination** ..... M. R. Siegel, M. C. Johnson, D. R. Varney, W. C. Nesmith, R. C. Buckner, L. P. Bush, P. B. Burrus II, T. A. Jones, and J. A. Boling

969-972 **Settling Speed of Clusters of Spores** ..... F. J. Ferrandino and D. E. Aylor

983-986 **Spread of Plant Pathogenic Bacteria with Fungal Hyphae** ..... C. Leben

995-1000 **Effects of Temperature, Moisture, and Stage of Inflorescence Development on Infection of Pineapple by *Penicillium funiculosum* and *Fusarium moniliforme* var. *subglutinans*** ..... K. G. Rohrbach and G. Taniguchi

1001-1006 **Partial Resistance of Near-Isogenic Wheat Lines Compatible with *Erysiphe graminis* f. sp. *tritici*** ..... M. H. Royer, R. R. Nelson, D. R. MacKenzie, and D. A. Diehle

1007-1010 **An Evaluation of the Independence of Certain Virulence Genes of *Erysiphe graminis* f. sp. *tritici*** ..... M. H. Royer, R. R. Nelson, and D. R. MacKenzie

POSTHARVEST PATHOLOGY AND MYCOTOXINS

887-890 **Growth Characteristics of *Aspergillus flavus* on Agar Infused With Maize Kernel Homogenates and Aflatoxin Contamination of Whole Kernel Samples** ..... N. W. Widstrom, W. W. McMillian, D. M. Wilson, D. L. Garwood, and D. V. Glover

DISEASE CONTROL AND PEST MANAGEMENT

894-899 **The Retention and Redistribution of Captan on Apple Foliage** ..... F. D. Smith and W. E. MacHardy

937-941 **A Fungal Endophyte of Tall Fescue: Evaluation of Control Methods** ..... M. R. Siegel, D. R. Varney, M. C. Johnson, W. C. Nesmith, R. C. Buckner, L. P. Bush, P. B. Burrus, II, and J. R. Hardison

PHYSIOLOGY AND BIOCHEMISTRY

899-903 **Postpenetration Development of *Puccinia coronata avenae* in Slow- and Fast-Rusting Cultivars of *Avena byzantina*** ..... H. H. Luke, R. D. Barnett, and P. L. Pfahler

921-924 **Viruslike Particles and Double-Stranded RNA in *Geotrichum candidum*, the Causal Agent of Citrus Sour Rot** ..... H. Mor, R. Steinlauf, and I. Barash

ETIOLOGY

909-915 **Identification of Single- and Double-Stranded RNAs Associated with Maize Stripe Virus** ..... B. W. Falk and J. H. Tsai

925-931 **Spiroplasmas from Plants with Aster Yellows Disease and X-Disease: Isolation and Transmission by Leafhoppers** ..... B. C. Raju, A. H. Purcell, and G. Nyland

972-976 **Moko Disease: Atypical Symptoms Induced by Afluidal Variants of *Pseudomonas solanacearum* in Banana Plants** ..... A. C. Woods

987-990 **Geminate Particles Associated with Cotton Leaf Crumple Disease in Arizona** ..... J. K. Brown and M. R. Nelson

SPECIAL TOPICS

916-920 **Potential Economic Consequences of the Entry of an Exotic Fungal Pest: The Case of Soybean Rust** ..... F. Kuchler, M. Duffy, R. D. Shrum, and W. M. Dowler

950-955 **Effect of Soilborne Plant-Pathogenic Fungi on the Herbicidal Action of Glyphosate on Bean Seedlings** ..... G. S. Johal and J. E. Rahe

GENETICS

941-945 **Different Ratios of General:Specific Virulence Variance Among Isolates of *Cylindrocladium crotalariae* from Different Peanut Genotypes** ..... M. C. Black and M. K. Beute

RESISTANCE

945-950 **Effects of Monoculture with Susceptible and Resistant Peanuts on the Virulence of *Cylindrocladium crotalariae*** ..... M. C. Black, M. K. Beute, and K. J. Leonard

956-960 **Resistance to *Dothistroma pini* Within Geographic Seed Sources of *Pinus ponderosa*** ..... G. W. Peterson

VECTOR RELATIONS

963-964 **Control of Wheat Streak Mosaic Virus with Vector Resistance in Wheat** ..... T. J. Martin, T. L. Harvey, C. G. Bender, and D. L. Seifers

977-979 **Pathogenicity of Corn Stunt Spiroplasma and Maize Bushy Stunt Mycoplasma to Their Vector, *Dalbulus longulus*** ..... L. R. Nault, L. V. Madden, W. E. Styer, B. W. Triplehorn, G. F. Shambaugh, and S. E. Heady

CYTOLOGY AND HISTOLOGY

991-994 **Interactions of Wild-Type and a Cellulose-Minus Mutant of *Agrobacterium tumefaciens* with Tobacco Mesophyll and Tobacco Tissue Culture Cells** ..... M. C. Deasey and A. G. Matthysse

DISEASE DETECTION AND LOSSES

965-969 **Enzyme-Linked Immunosorbent Assay of Viruses Infecting Forage Legumes** ... M. R. McLaughlin, O. W. Barnett, P. B. Gibson, and P. M. Burrows

980-983 **Effect of Stem Location of Fusiform Rust Symptoms on Volume Yields of Loblolly and Slash Pine Sawtimber** ..... R. S. Webb and H. D. Patterson

1011-1016 **Abstracts of papers presented at the 1984 meeting of the Caribbean Division**

No. 9—September

OBITUARY

1017 **Karl Herman Fernow, 1893-1983** ..... E. D. Jones, W. F. Mai, and L. J. Tyler

1018 **Abbas Fatehi El-Helaly, 1902-1983** ..... M. K. Abo-El-Dahab

LETTER TO THE EDITOR

1019-1021 **The Controlled Experiment in the Scientific Method with Special Emphasis on Biological Control** ..... R. Baker, Y. Elad, and I. Chet

1022 **The Virulence Associations in *Puccinia graminis* f. sp. *tritici* in North America** ..... A. P. Roelfs and J. W. Martens

1023 **The Association and Dissociation of Genes for Virulence in Wheat Stem Rust** ..... D. R. Knott

SPECIAL TOPICS

1027-1031 **Fungitoxicity of Smoke** ..... D. Zagory and J. R. Parmeter, Jr.

1074-1078 **Effect of Age, Size, and Weight of Witchweed Seeds on Host/Parasite Relations** ..... F. F. Bebawi, R. E. Eplee, and R. S. Norris

TECHNIQUES

1032-1034 **A 24-Hour Deposition Sampler for Spores of *Heterobasidion annosum*** ..... R. L. Edmonds, R. W. Hinshaw, and K. B. Leslie

1078-1080 **Application of Scanning Electron Microscopy to Paraffin-Embedded Plant Tissues to Study Invasive Processes of Plant-Pathogenic Fungi** ..... D. A. Gaudet and E. G. Kokko

1097-1100 **An Improved Immunodiffusion Test for the Detection of Intact Cucumber Mosaic Virus in Crude Tobacco Sap** ..... I. B. Ahmad and H. A. Scott

1132-1134 **Effect of Grid Rotation in a Magnetic Field on Virus Adsorption in Immunosorbent Electron Microscopy** ..... L. W. Stobbs

DISEASE CONTROL AND PEST MANAGEMENT

1034-1040 **Effects of Metalaxyl on *Peronospora tabacina* Infecting Tobacco** ..... R. N. Trigiano, C. G. Van Dyke, and H. W. Spurr, Jr.

1086-1091 **Evaluation of Induced Mutants of Papaya Ringspot Virus for Control by Cross Protection** ..... S.-D. Yeh and D. Gonsalves

ECOLOGY AND EPIDEMIOLOGY

1024-1026 **Effect of Host Genotype on Estimating Relative Parasitic Fitness Among Populations of *Helminthosporium carbonum* Race 3** ..... L. V. Gregory, J. E. Ayers, and R. R. Nelson

1044-1049 **Increased Take-all of Wheat with Direct Drilling in the Pacific Northwest** ..... K. J. Moore and R. J. Cook

1054-1061 **Soil Suppressiveness to a Plant Pathogenic *Pythium* species** ..... R. Lifshitz, B. Sneh, and R. Baker

1061-1064 **Parasitic Specialization of *Puccinia hordei* in Israel** ..... Y. Anikster

1070-1073 **Anthracnose of *Stylosanthes capitata*: Implications for Future Disease Evaluations of Indigenous Tropical Pasture Legumes** ..... J. M. Lenné, D. Thomas, R. P. de Andrade, and A. Vargas

1081-1085 **Comparative Studies on Host Range and Serology of Papaya Ringspot Virus and Watermelon Mosaic Virus 1** ..... S.-D. Yeh, D. Gonsalves, and R. Provvidenti

1092-1096 **Influence of the Antagonist *Laetisaria arvalis* on Infection of Table Beets by *Phoma betae*** ..... S. B. Martin, G. S. Abawi, and H. C. Hoch

1107-1110 **Effects of Isolate Virulence, Plant Age, and Crop Residues on Seedling Blight of Sunflower Caused by *Alternaria helianthi*** ..... K. K. Jeffrey, P. E. Lipps, and L. J. Herr

1115-1124 **Chlamydospore Germination of *Fusarium oxysporum* f. sp. *cucumerinum* as Affected by Fluorescent and Lytic Bacteria from a Fusarium-Suppressive Soil** ..... B. Sneh, M. Dupler, Y. Elad, and R. Baker

1128-1132 **Relationships Among Inoculum Density, Microsclerotium Size, and Inoculum Efficiency of *Cylindrocladium crotalariae* Causing Root Rot on Peanuts** ..... M. C. Black and M. K. Beute

CYTOLOGY AND HISTOLOGY

1041-1043 **Development of Latent Infections on Cranberry Leaves Inoculated with *Botryosphaeria vaccinii*** ..... G. J. Weidemann and D. M. Boone

1111-1114 **Potyvirus Cylindrical Inclusions—Subdivision-IV** ..... J. R. Edwardson, R. G. Christie, and N. J. Ko

POSTHARVEST PATHOLOGY AND MYCOTOXINS

1050-1053 **Fungal Populations in U.S. Farm-Stored Grain and Their Relationship to Moisture, Storage Time, Regions, and Insect Infestation** ..... D. B. Sauer, C. L. Storey, and D. E. Walker

PHYSIOLOGY AND BIOCHEMISTRY

1065-1070 **Comparison of Different Immunogen Preparations for Serological Identification of *Xanthomonas campestris* pv. *campestris*** ..... N. Thaveechai and N. W. Schaad

1125-1127 **Evaluation of Ergosterol as an Indicator of Infestation of Barley Seed by *Drechslera graminea*** ..... T. R. Gordon and R. K. Webster

DISEASE DETECTION AND LOSSES

1101-1103 **Relationship Between Yield Loss and Severity of Early and Late Leafspot Diseases of Peanut** ..... P. A. Backman and M. A. Crawford

1104-1106 **Effects of Sulfur Dioxide and Nitrogen Dioxide on Vegetative Growth of Soybeans** .... C. I. Klarer, R. A. Reinert, and J. S. Huang

ABSTRACTS

1135-1142 **Abstracts of papers presented at the 1984 meeting of the Pacific Division**

No. 10—October

LETTER TO THE EDITOR

1143-1145 **The Genetic Basis of Plant-Pathogen Interaction** ..... C. S. Tepper and A. J. Anderson

1145-1147 **Computer Simulation Raises Question About Timing Protectant Fungicide Application Frequency According to a Potato Late Blight Forecast** ..... C. R. Fohner, W. E. Fry, and G. B. White

DISEASE CONTROL AND PEST MANAGEMENT

1167-1170 **Lignite and Stillage: Carrier and Substrate for Application of Fungal Biocontrol Agents to Soil** ..... R. W. Jones, R. E. Pettit, and R. A. Taber

1181-1188 **Botrytis Blight of *Exacum affine* and Its Control** ..... J. C. Trolinger and D. L. Strider

1189-1193 **Evaluation of Criteria for the Utilization of Peanut Leafspot Advisories in Virginia** ..... P. M. Phipps and N. L. Powell

1257-1261 **Colonization of Chestnut Blight Cankers by *Ceratocystis microspora* and *C. eucastaneae*** ..... J. S. Russin and L. Shain

GENETICS

1161-1166 **Pathogenicity Associations in *Puccinia graminis* f. sp. *tritici* in the United States** ..... H. M. Alexander, A. P. Roelfs, and J. V. Groth

1245-1250 **Transfer, Mapping, and Cloning of *Pseudomonas syringae* pv. *syringae* Plasmid pCG131 and Assessment of Its Role in Virulence** ..... C. F. Gonzalez, S. K. Layher, A. K. Vidaver, and R. H. Olsen

ETIOLOGY

1152-1156 **A New Cercospora Leaf and Stem Disease of Subterranean Clover** ..... R. G. Pratt

1220-1224 **Isolation of Anastomosis Group 5 of *Rhizoctonia solani* from Potato Field Soils in Maine** ..... B. P. Bandy, D. H. Zanzinger, and S. M. Tavantzis

1224-1229 **Identification of Small Single- and Double-Stranded RNAs Associated with Severe Symptoms in Beet Western Yellows Virus-Infected *Capsella bursa-pastoris*** ..... B. W. Falk and J. E. Duffus

ECOLOGY AND EPIDEMIOLOGY

1148-1152 **Relation Between Rate Parameters and Latent and Infectious Periods During a Plant Disease Epidemic** ..... M. J. Jeger

SPECIAL TOPICS

1157-1161 **Negative Interplot Interference in Field Experiments with Leaf Rust of Wheat** ..... K. L. Bowen, P. S. Teng, and A. P. Roelfs

1176-1180 **Density Dependent Sporulation of *Erysiphe graminis* f. sp. *tritici*** ..... D. I. Rouse, D. R. MacKenzie, and R. R. Nelson

1234-1239 **Perforation and Lysis of Hyphae of *Rhizoctonia solani* and Conidia of *Cochliobolus miyabeanus* by Soil Myxobacteria** ..... Y. Homma

1262-1267 **Uredospore Dispersal from a Point Source within a Wheat Canopy** ..... A. P. Roelfs and L. B. Martell

TECHNIQUES

1171-1175 **Liquid Fermentation Technology for Experimental Production of Biocontrol Fungi** ..... G. C. Papavizas, M. T. Dunn, J. A. Lewis, and J. Beagle-Ristaino

1240-1244 **A New Approach to Stimulate Population Proliferation of *Trichoderma* species and Other Potential Biocontrol Fungi Introduced into Natural Soils** ..... J. A. Lewis and G. C. Papavizas

PHYSIOLOGY AND BIOCHEMISTRY

1194-1200 **Isolation and Identification of α-Tocopherol as an Inducer of the Parasitic Phase of *Ustilago violacea*** ..... A. J. Castle and A. W. Day

1217-1220 **Ozone-Enhanced Leaching of Onion Leaves in Relation to Lesion Production by *Botrytis cinerea*** ..... D. L. Rist and J. W. Lorbeer

1230-1233 **Transient Changes in Hydraulic Resistance Caused in Corn Roots by *Fusarium moniliforme*** ..... R. W. Schneider

1250-1256 **Reduced Severity of Erwinia Soft Rot in Potato Tubers with Increased Calcium Content** ..... R. G. McGuire and A. Kelman

RESISTANCE

1201-1208 **Field Characterization of Rate-Reducing Resistance to *Phytophthora megasperma* f. sp. *glycinea* in Soybean** ..... P. W. Tooley and C. R. Grau

1209-1216 **The Relationship Between Rate-Reducing Resistance to *Phytophthora megasperma* f. sp. *glycinea* and Yield of Soybean** ..... P. W. Tooley and C. R. Grau

ABSTRACTS

1268-1272 **Abstracts presented at the 1984 meeting of the North Central Division**

No. 11—November

RESISTANCE

1312-1314 **Phytoalexin Production in Five Cultivars of Peas Differentially Resistant to Three Races of *Pseudomonas syringae* pv. *pisi*** ..... L. A. Hadwiger and D. M. Webster

1370-1376 **Relationship Between Heat-Induced Fungal Death and Plant Necrosis in Compatible and Incompatible Interactions Involving the Bean and Cowpea Rust Fungi** ..... M. C. Heath

ECOLOGY AND EPIDEMIOLOGY

1284-1289 **Preharvest Infection of Corn Silks and Kernels by *Aspergillus flavus*** ..... S. F. Marsh and G. A. Payne

1317-1319 **Maize Streak Virus: Effect of Temperature on Vector and Virus** ..... V. D. Damsteegt

1329-1333 **Epiphytic Populations of *Pseudomonas syringae* pv. *syringae* on Snap Bean and Nonhost Plants and the Incidence of Bacterial Brown Spot Disease in Relation to Cropping Patterns** ..... J. Lindemann, D. C. Arny, and C. D. Upper

1334-1339 **Use of an Apparent Infection Threshold Population of *Pseudomonas syringae* to Predict Incidence and Severity of Brown Spot of Bean** ..... J. Lindemann, D. C. Arny, and C. D. Upper

1342-1345 **New Medium for Detecting *Erwinia amylovora* and Its Use in Epidemiological Studies** ..... C. Ishimaru and E. J. Klos

1359-1363 **Influence of Pine Bark, Matric Potential, and pH on Sporangium Production by *Phytophthora cinnamomi*** ..... D. M. Benson

1385-1387 **Dispersion Statistics and Sequential Sampling Plan for Leaf Blight Caused by *Botrytis squamosa* in Onions** ..... G. Boivin and P. Sauriol

1395-1398 **Variability of Virulence in Grapevine Among Isolates of the Pierce's Disease Bacterium** ..... D. L. Hopkins

GENETICS

1278-1283 **Isozyme Analysis to Differentiate Species of *Peronosclerospora* Causing Downy Mildews of Maize** ..... M. R. Bonde, G. L. Peterson, W. M. Dowler, and B. May

CYTOLOGY AND HISTOLOGY

1325-1328 **Relationship of Xylem Plugging to Reduced Water Uptake and Symptom Development in Citrus Trees with Blight and Blightlike Declines** ..... R. H. Brlansky, L. W. Timmer, R. F. Lee, and J. H. Graham

1339-1341 **Histopathology of Ripe Rot Caused by *Colletotrichum gloeosporioides* on Muscadine Grape** ..... M. E. Daykin and R. D. Milholland

PHYSIOLOGY AND BIOCHEMISTRY

1273-1278 **Purification and Immunological Analyses of Cylindrical-Inclusion Protein Induced by Papaya Ringspot Virus and Watermelon Mosaic Virus 1** ..... S.-D. Yeh and D. Gonsalves

1290-1295 **Effect of Volatile Compounds, Nutrients, and Source of Sclerotia on Eruptive Sclerotial Germination of *Sclerotium rolfsii*** ..... Z. K. Punja, S. F. Jenkins, and R. G. Grogan

1304-1307 **Effect of the Ring Nematode Upon Growth and Physiology of Peach Rootstocks Under Greenhouse Conditions** ..... W. R. Okie and C. C. Reilly

1349-1352 **Glyceollin: A Phytoalexin in Leaf Blight of *Costus speciosus*** ..... S. Kumar, R. S. Shukla, K. P. Singh, J. D. Paxton, and A. Husain

1381-1384 **Suppression of Binding between Rhizobia and Soybean Roots by *Heterodera glycines*** ..... J.-s. Huang, K. R. Barker, and C. G. Van Dyke

SPECIAL TOPICS

1346-1349 **Phytotoxicity to Crop Plants and Herbicidal Effects on Weeds of Viridiol Produced by *Gliocladium virens*** ..... C. R. Howell and R. D. Stipanovic

1353-1358 **Induced Autofluorescence in Fungi and Its Correlation with Viability: Potential Application of Fluorescence Microscopy** ..... C. H. Wu and H. L. Warren

ETIOLOGY

1296-1300 **Influence of Moisture, Temperature, Leaf Maturity, and Host Genotype on Infection of Elms by *Stegophora ulmea*** ..... G. H. McGranahan and E. B. Smalley

1300-1303 **Conidial Morphology, Axenic Growth, and Sporulation of *Stegophora ulmea*** ..... G. H. McGranahan and E. B. Smalley

1308-1312 **Antigenic Relationships Between Isolates of Mild Dark-Green Tobacco Mosaic Virus, and the Problem of Host-Induced Mutation** ..... C. Wetter

1363-1369 **Characterization of a New Potyvirus from Potato** ..... C. E. Fribourg and J. Nakashima

1388-1394 ***Erwinia chrysanthemi*: Serological Relationships Among Strains from Several Hosts** ..... R. S. Dickey, C. H. Zumoff, and J. K. Uyemoto

DISEASE CONTROL AND PEST MANAGEMENT

1315-1316 **Heat Therapy and Stolon Apex Culture to Eliminate Mild Yellow-edge Virus from Hood Strawberry** ..... R. H. Converse and E. Tanne

1320-1324 **An Agent Associated With Bee-Stored Pollen That Degrades Intact Viruses** ..... A. Cole and G. I. Mink

1377-1380 **Effects of Simulated Acidic Rain on Retention of Pesticides on Leaf Surfaces** ..... J. Troiano and E. J. Butterfield

No. 12—December

LETTER TO THE EDITOR

1399-1402 **Comparison of Statistical Methods for Studying Spatial Patterns of Soilborne Plant Pathogens in the Field** ..... P. C. Nicot, D. I. Rouse, and B. S. Yandell

DISEASE CONTROL AND PEST MANAGEMENT

1411-1414 **Development of Laboratory Resistance to Metalaxyl in *Phytophthora citricola*** ... M. C. Joseph and M. D. Coffey

1434-1437 **Synergy Between Metalaxyl and Mancozeb in Controlling Downy Mildew in Cucumbers** ..... Y. Samoucha and Y. Cohen

1437-1439 **Differential Sensitivity to Mancozeb of Metalaxyl-Sensitive and Metalaxyl-Resistant Isolates of *Pseudoperonospora cubensis*** ..... Y. Samoucha and Y. Cohen

1440-1444 **Effect of Chemical and Biological Agents on the Incidence of *Aspergillus flavus* and Aflatoxin Contamination of Peanut Seed** ..... A. C. Mixon, D. K. Bell, and D. M. Wilson

DISEASE DETECTION AND LOSSES

1403-1407 **Yield Losses Caused by Fungal Foliar Wheat Pathogens in Brazil** ..... W. C. da Luz

PHYSIOLOGY AND BIOCHEMISTRY

1407-1411 **Effect of Chlorophenoxy Herbicides on Free Amino Acids in Sequentially Senescent Leaves of *Poa pratensis* and on Pathogenesis by *Bipolaris sorokiniana*** ..... J. P. Madsen and C. F. Hodges

1475-1479 **Effect of Ethanol on the Accumulation of Antifungal Compounds and Resistance of Tomato to *Fusarium oxysporum* f. sp. *lycopersici*** ..... S. J. Danko and M. E. Corden

POSTHARVEST PATHOLOGY AND MYCOTOXINS

1415-1418 **Effect of Kernel Development and Wet Periods on Production of Deoxynivalenol in Wheat Infected with *Gibberella zeae*** ..... L. P. Hart, J. J. Pestka, and M. T. Liu

RESISTANCE

1419-1423 **Infection Processes of *Puccinia recondita* in Slow- and Fast-Rusting Wheat Cultivars** .... T. S. Lee and G. Shaner

TECHNIQUES

1423-1425 **A Simple Device for Sampling Spores to Monitor Fungicide Resistance in the Field** ..... N. Lalancette, Jr., J. M. Russo, and K. D. Hickey

1431-1434 **Production of Monoclonal Antibodies to *Corynebacterium sepedonicum*** ..... S. H. De Boer and A. Wieczorek

ECOLOGY AND EPIDEMIOLOGY

1425-1430 **Sensitivity of Weibull Model Parameter Estimates to Variation in Simulated Disease Progression Data** ..... W. M. Thal, C. L. Campbell, and L. V. Madden

1444-1449 **Interactive Effects of the Dark Period, Humid Period, Temperature, and Light on Sporulation of *Peronospora destructor*** ..... P. D. Hildebrand and J. C. Sutton

1454-1460 **Lognormal Distribution of Bacterial Populations in the Rhizosphere** ..... J. E. Loper, T. V. Suslow, and M. N. Schroth

1461-1463 **Influence of Leaf Position and Maturity on Development of *Botrytis squamosa* in Onion Leaves** ..... S. C. Alderman and M. L. Lacy

1464-1466 **The Relationship Between Time of Cortical Senescence and Foliar Symptom Development of Phymatotrichum Root Rot of Cotton** ..... C. M. Rush, S. D. Lyda, and T. J. Gerik

1466-1469 **Factors Affecting Symptom Appearance and Development of Phymatotrichum Root Rot of Cotton** ..... C. M. Rush, T. J. Gerik, and S. D. Lyda

1470-1474 **Effect of Initial Inoculum Densities of *Heterodera glycines* on Growth of Soybean and Kidney Bean and Their Efficiency as Hosts Under Greenhouse Conditions** .... G. S. Abawi and B. J. Jacobsen

VECTOR RELATIONS

1450-1453 **Differences Among Five Stages of *Schizaphis graminum* in Transmission of a Barley Yellow Dwarf Luteovirus** ..... G.-he Zhou and W. F. Rochow

i **Tables of Contents for 1984**

I **Index for 1984**

Statement of Ownership, Management, and Circulation
